

Nappy Changing

At Fun Foundations Day Nursery we aim to support children's care and welfare on a daily basis in line with their individual needs. All children need contact with familiar, consistent carers to ensure they can grow confidently and feel self-assured. Wherever possible, each child's key worker will change nappies according to the child's individual needs and requirements.

Our procedures meet best practice identified by the Infection Prevention and Control for Childcare Settings (2014).

We will enable a two-way exchange between parents and key workers so that information is shared about nappy changing and toilet training in a way that suits the parents and meets the child's needs.

Parents will be engaged in the process of potty training and supported to continue potty training with their child at home.

We will use appropriate designated facilities for nappy changing which meet the following criteria:

- Facilities are separate to food preparation and serving areas and children's play areas;
- Changing mats are waterproof and have a sealed plastic covering. They are frequently checked for cracks or tears. If cracks or tears are found, the mat will be discarded.
- Clean nappies are stored in a clean dry place; soiled nappies are placed in a 'nappy sack' or plastic bag before being placed in the bin.
- Bins are regularly emptied and placed in an appropriate waste collection area

For any non-prescription cream for skin conditions e.g. Sudocrem each child has their own creams and lotions. These are supplied by the parent/guardian and must be clearly labelled with the child's name. Prior written permission is obtained from the parent. When applying creams for rashes, a gloved hand is used.

Staff changing nappies will:

- Use a new disposable apron and pair of gloves for each nappy change and always wash hands before and after using gloves.
- Clean disinfect and dry mats thoroughly after each nappy change
- Ensure they have all the equipment they need and access to fresh water before each nappy change.
- Ensure that they are protecting the privacy of the child, whilst maintaining safeguarding procedures and not changing children behind closed doors.
- Nappy bags, gloves and aprons will be kept out of reach of babies and children

We wish to ensure the safety and welfare of the children whilst being changed and safeguard against any potential harm as well as ensuring the staff member involved is fully supported and

able to perform their duties safely and confidently. We aim to support all parties through the following actions:

- Promoting consistent and caring relationships through the key worker system in the nursery and ensuring all parents understand how this works
- Using this one-to-one time as a key opportunity to talk to children and help them learn, e.g. through singing and saying rhymes during the change
- Ensuring that the nappy changing area is inviting and stimulating and change this area regularly to continue to meet children's interests
- Ensuring all staff undertaking nappy changing have suitable enhanced DBS checks
- Training all staff in the appropriate methods for nappy changing
- Ensuring that no child is ever left unattended during the nappy changing time
- Making sure staff do not change nappies whilst pregnant until a risk assessment has been discussed and conducted and that students only change nappies with the support and close supervision of a qualified member of staff
- Conducting thorough inductions for all new staff to ensure they are fully aware of all nursery procedures relating to nappy changing
- Ensuring hygiene procedures are followed appropriately, e.g. hands washed before and after nappies are changed and changing mats cleaned before and after each use
- Following up procedures through supervision meetings and appraisals to identify any areas for development or further training
- Working closely with parents on all aspects of the child's care and education as laid out in the parent and carers as partners policy. This is essential for any intimate care routines which may require specialist training or support. If a child requires specific support the nursery will arrange a meeting with the parent to discover all the relevant information relating to this to enable the staff to care for the child fully and meet their individual needs
- Ensuring all staff have an up-to-date understanding of child protection and how to protect children from harm. This includes identifying signs and symptoms of abuse and how to raise these concerns as set out in the child protection policy
- Operating a whistleblowing policy to help staff raise any concerns relating to their peers or managers; and helping staff develop confidence in raising concerns as they arise in order to safeguard the children in the nursery
- Balancing the right for privacy for the children with the need for safeguarding children and adults by making sure intimate care routines do not take place behind closed doors
- Cameras and mobile phones are not permitted within toilets and intimate care areas
- Conducting working practice observations of all aspects of nursery operations to ensure that procedures are working in practice and all children are supported fully by the staff. This includes all intimate care routines
- Conducting regular risk assessments of all aspects of nursery operations including intimate care and reviewing the safeguards in place. The nursery has assessed all the risks relating to intimate care routines and has placed appropriate safeguards in place to ensure the safety of all involved.

If any parent or member of staff has concerns or questions about nappy changing procedures or individual routines please see the manager at the earliest opportunity.
